

deBAKOM GmbH Acoustic, Odour

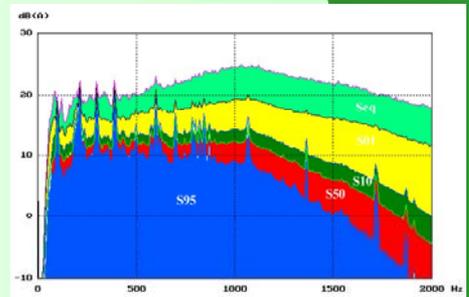

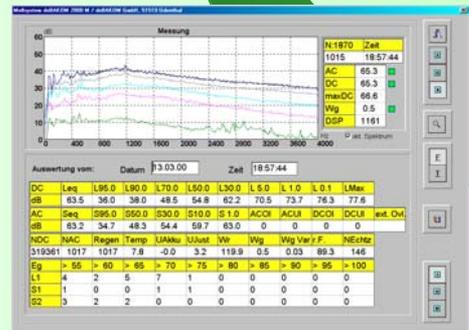

deBAKOM Services:

- environmental acoustics
- noise control
- noise emission inventories
- odour measurements
- development of noise monitoring systems
- software development for data evaluation
- noise mapping

Measuring system deBAKOM 2000 for

- Long-term noise monitoring of road, industry, rail, aircraft noise
- Statistical noise separation
- Noise identification by pattern recognition
- Meteorology
- Percentil levels (12)
- Percentil spectra (12)
- Level recording with source identification
- Sound recording on hard-disk (650 h)
