

ACOUSTICS Two Professionals. One Passion.

Since 1962, Müller-BBM has done business as an „acoustical consultancy“. Today we and Müller-BBM VibroAkustik Systeme are leading consulting engineering companies with a broad range of activities and tailor-made solutions for demanding applications.

- Signature Analysis
- Digital n'th Octaves
- Digital Ordertracking
- Crank Angle Analysis
- Torsional Vibration Analysis
- Structure Tests
- Passby Measurement
- Transfer Path Analysis / Synthesis
- Technical Acoustics
- Psychoacoustics
- Sound Design and more...

- Room Acoustics
- Building Acoustics
- Thermal and Hygric Building Physics
- Building Climatology
- Fire Protection
- Noise Control for Traffic and Environmental Noises
- Industrial Noise
- Air Quality Control
- Vibration Control
- Electromagnetic environment compatibility
- Lighting Engineering
- Vehicle Acoustics
- Ship Acoustics
- Machinery Acoustics
- Psychoacoustics
- Active Sound and Vibration Control
- Man-Machine-Communication
